

- **Password Complexity:** Minimum 12 characters with mixed types (uppercase, lowercase, numbers, special characters).
- **Expiry:** Change passwords every 90 days.
- **Account Lockout:** Lock accounts after 5 failed attempts for 15 minutes.
- **MFA:** Add an additional verification step (e.g., code sent to phone, fingerprint).
- **Password History:** Prevent reuse of the last 5 passwords.
- **User Education:** Regular training on password security and phishing awareness.
- **Monitoring:** Implement tools to detect and alert on suspicious login attempts.
